CONSUS COMPLIANCE GAP ASSESSMENT REPORT

Target: DEBOISTECH | Aerospace & Defense Compliant AI Pre-Assessment

Assessment Generated: 2026-10-07 07:53:41 UTC

Total: 5	MATCH: 1	PARTIAL: 4	MISMATCH: 0

Requirement Gap Analysis & Findings

[PARTIAL] CONSUS-DATA-001: US-Only Sovereign Geographic Boundary & Data Isolation (Severity: HIGH)

Evidence Policy: Data Handling Policy

Finding: The customer's Data Handling Policy discusses cloud hosting and storage retention but does not explicitly enforce a strict US-only sovereign boundary.

Missin

* Explicit US sovereign boundary commitment

Recommended Action: Specify US-only sovereign hosting constraints in Data Handling Policy.

[MATCH] CONSUS-ENC-001: Cryptographic Protection in Transit and at Rest (Severity: LOW)

Evidence Policy: Encryption Policy

Finding: The customer's Encryption Policy fully satisfies cryptographic requirements by enforcing AES-256 at rest, TLS 1.2+ in transit, and KMS key management with annual rotation.

[PARTIAL] CONSUS-IAM-001: Granular Role-Based Access Control (RBAC) and US-Person Access Enforcement (Sever

Evidence Policy: Access Control Policy

Finding: The customer's Access Control Policy provides basic authentication controls but lacks defense-tier RBAC and US-person verification.

Missin

* Granular RBAC
* US-person verification

Recommended Action: Adopt granular RBAC and US-person scoping.

[PARTIAL] CONSUS-IR-001: Security Incident Response, Containment, and Notification SLA (Severity: MEDIUM)

Evidence Policy: Incident Response Policy

Finding: The customer's Incident Response Policy is present but lacks explicit notification SLA or containment procedures.

Missin

* Explicit 72h notification SLA

Recommended Action: Formalize notification SLA within incident response policy.

[PARTIAL] CONSUS-LOG-001: Comprehensive Immutable Audit Logging and Centralized Telemetry (Severity: MEDIUM

Evidence Policy: Audit Logging Policy

Finding: The customer's Audit Logging Policy captures general system events but does not meet defense-grade audit retention or telemetry scope.

Missin

* AI inference telemetry
* 1-year retention

Recommended Action: Extend logging scope and retention.

Human Governance Notice

This gap report is generated by the Consus Compliance Operations MCP tool for automated pre-assessment. It does not replace formal human compliance review or legal audit. Company policy owners must remediate identified gaps prior to official defense AI authorization.
